BY TEAM ③⑦:

TEODOR TONGHIOIU

CLAUDIU DĂRĂMUȘ

RĂZVAN POP

CRISTIAN HILOHI

WHY WE MADE IT?

- Makes homes smarter

- Eases your acces

- You won't need your keys anymore

WHO CAN USE IT?

- Easy to afford for most people

- Good for any user

FUNCTIONALITY

- Lock/unlock your doors using just the phone

- Auto-unlocking makes everything easier

HOW TO USE IT

- Put the Bluetooth device on the inside of the door

- Pair the lock with your phone

- Save your lock

- You can lock/unlock when you are paired

- The lock can unlock itself if you want

WHAT WE USED?

- Device using Bluetooth with Arduino

- Android app made in Android Studio using Java

- Icons designed in Adobe Photoshop

HOW WE ORGANISED

- Răzvan: phisycal device

- Cristi: design and interface

- Claudiu and Teo: Bluetooth and more code

THANK YOU!
